THE PENNSYLVANIA STATE DATA CENTER PROGRAM

THE CONCEPT

The Pennsylvania State Data Center (PSDC) Program has been established to improve access to and use of statistical resources available from the United States Bureau of the Census and other sources. Census Bureau products that can be accessed through this PSDC Program include all major statistical programs covering such areas as: population, housing, agriculture, manufacturing, retail and wholesale trade, governments, etc. Data are generated in printed reports, microfiche, and computer files. Information and services are available through the PSDC office at The Pennsylvania State University/Capitol Campus, the Pennsylvania State Library, or through the network of Affiliate Data Centers (ADCs) located across the Commonwealth.

THE PENNSYLVANIA STATE DATA CENTER

Data Products and Services

The PSDC located at The Pennsylvania State University/Capitol Campus will provide products and services to any interested user. State agencies, local governments, businesses, nonprofit organizations, or researchers may all obtain information housed and generated by the PSDC. Costs incurred by the PSDC in providing products and services will be charged to the user.

Products and services available through the PSDC are:

- Census Bureau printed reports and microfiche
- Census Bureau reference maps
- PSDC printed reports
- Consultation on data availability and use
- Computer tape processing
- Demographic and geographic profiles
- Statistical analyses
- Statistical mapping and geoprocessing

Training and Information

The PSDC facilitates education and training in the use of statistical resources by participating in conferences, workshops, and training courses throughout the state. The PSDC also publishes a periodic newsletter about user services and new statistical products.

If you would like information about training sessions or would like to receive copies of the newsletter please contact the Pennsylvania State Data Center.

The Center

The PSDC staff is prepared to assist you in meeting your data and information needs. The center is open daily from 8:30 a.m. to 4:30 p.m. For information, please contact:

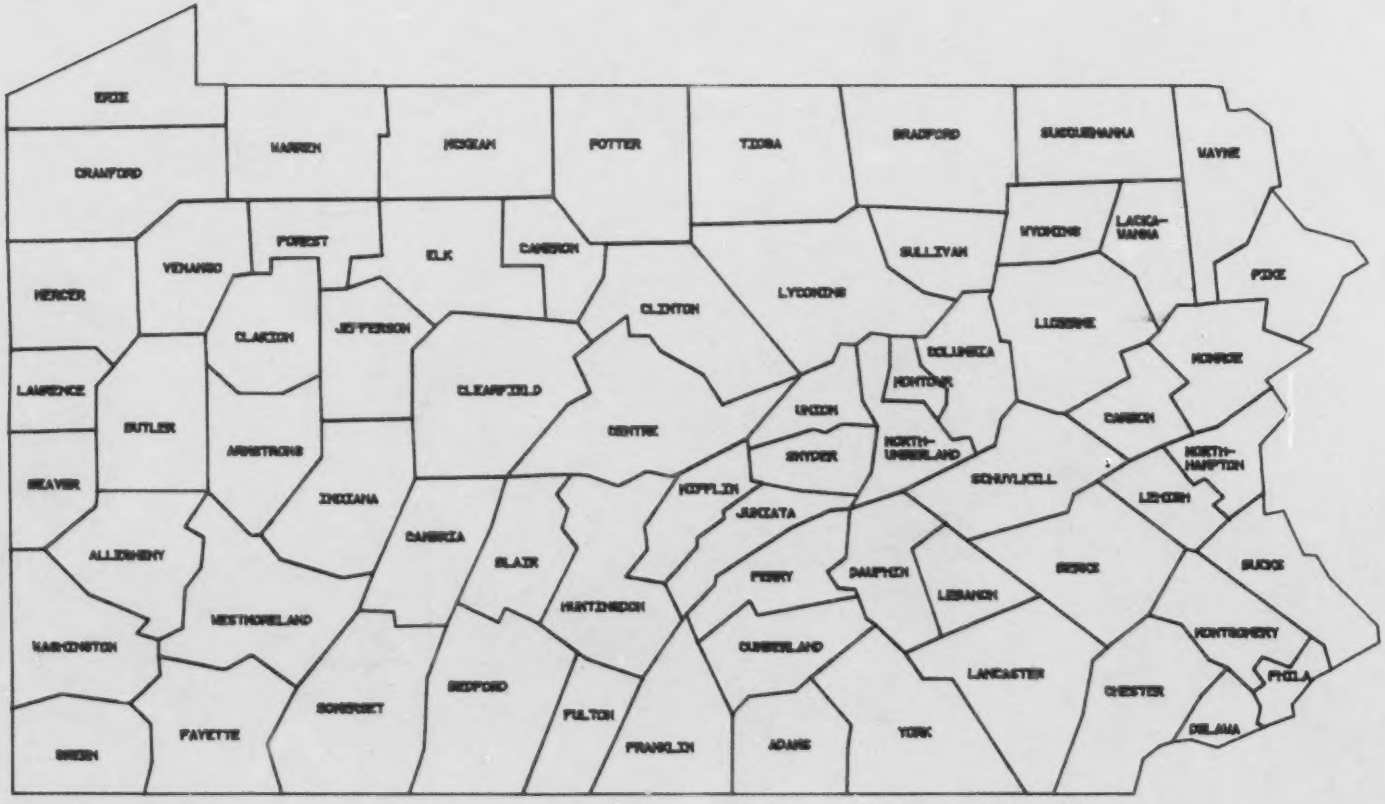
COMMONWEALTH OF PENNSYLVANIA



PA. STATE DATA CENTER: STATISTICAL GRAPHICS SERVICE

INTRODUCTION

This report contains selected 1980 Census of Population and Housing statistics for Pennsylvania. The geographic areas for which data are presented are: the Commonwealth, its 67 counties, and 2,580 local municipalities.

The statistics presented in this report represent only a fraction of what the U.S. Census Bureau refers to as "Sample Items." Appendix A: Pennsylvania Profile presents the full range of sample data items that are currently available at several geographic levels. Users needing information for specific geographic levels should contact the Pennsylvania State Data Center or one of its Affiliate Data Centers (see inside back cover for their listing).

In addition, tabulations of "100 Percent Items" or characteristics such as age, sex, race, and household status have been previously presented in the report 1980 General Population and Housing Characteristics, PSDC 80-1-82.

1980 ECONOMIC AND SOCIAL INDICATORS

Income

The median family income in Pennsylvania rose 109.2 percent during the decade, from $9,558 in 1969 to $19,995 in 1979. This not only exceeded the national median of $19,908, but preliminary estimates for the nation indicated that the median income of U.S. families rose only 107.7 percent between 1969 and 1979.

Forty-two of Pennsylvania's 67 counties showed increases of 110 percent or more in median family income between 1969 and 1979, with the largest gains occurring in the smaller nonmetropolitan counties of Western Pennsylvania. Clarion County showed the largest increase (147.7 percent), from $7,365 in 1969 to $18,915 in 1979, followed by Greene (143.5 percent) and Fayette (141.7 percent) Counties. However, the income in these counties still lagged behind that of the metropolitan counties in Pennsylvania. Median family income was the highest in the suburban Philadelphia counties of Montgomery ($25,803) and Chester ($25,533). These were followed closely by Bucks and Delaware Counties, with medians of $24,402 and $23,103 respectively.

While the smallest change in family income was noted in Cameron County (70.9 percent), the income of Cameron County in both 1969 ($9,850) and 1979 ($16,832) exceeded that in Philadelphia. The median family income in Philadelphia rose 75.0 percent, from $9,366 to $16,388.

Figure 1 depicts the 1969 to 1979 change in median family income by county in Pennsylvania.

Poverty Status

Overall, the percent of persons in Pennsylvania living below the poverty level decreased from 1970 (10.6 percent) to 1980 (10.4 percent). In comparison, the poverty rate for the nation dropped from 13.7 percent to 12.5 percent.

The poverty rate decreased in all but eight counties and in seven of these counties the increase was less than one percentage point. The exception, Philadelphia County, rose from 15.4 percent in 1970 to 20.5 percent of its population living in poverty in 1980. This resulted in Philadelphia replacing Greene County (which in 1970 had a poverty rate of 21.4 percent) as the county with the highest poverty rate in the State.

However, the largest proportions of persons in poverty were noted in the nonmetropolitan counties of Pennsylvania. Twenty-two of the State's 27 nonmetropolitan counties had poverty rates above the State average, ranging from 15.8 percent in Sullivan County to 10.3 percent in Clearfield County.

Figure 2 shows the poverty rate for all counties in Pennsylvania.

Education

Slightly less than 36 percent of Pennsylvania's population 25 years of age and older were not high school graduates in 1980. This represents a decrease since 1970 when 49.8 percent of that population had less than four years of high school.

In 1980, the counties with the largest proportion of high school graduates were Chester (76.4), Montgomery (75.8), Centre (75.7), Bucks (74.7), Cumberland (72.8) and Delaware (72.3). In contrast, Chester County ranked number three in 1970 with 62.1 percent of its population having attained four or more years of high school. Centre County ranked first with 66.2 percent.

Nationwide in 1980, an estimated 66.3 percent of the population 25 years of age and older had completed high school. The largest proportion of high school graduates were located in the Western States, ranging from 82.8 percent in Alaska to 68.2 percent in New Mexico.

The proportion of college graduates residing in Pennsylvania also increased between 1970 and 1980. Thirteen and one-half percent of the population 25 years of age and older were college graduates in 1980. Only 8.7 percent of that population had four or more years of college in 1970. The proportion of college graduates nationwide rose from 10.7 percent in 1970 to 16.3 percent in 1980.

Higher educational attainment was again noted in the metropolitan counties. Centre, Chester, and Montgomery Counties were the leaders in the State with 27.4 percent, 26.2 percent, and 24.8 percent of their populations, respectively, having attained four years of college or more.

Less than seven percent of the population of Armstrong, Bedford, Forest, Juniata, Mifflin, Northumberland and Schuylkill Counties were college graduates in 1980. Of these counties, Forest County had the smallest population of college graduates, 5.8 percent.

Unemployment

The unemployment rate in Pennsylvania increased during the decade, up from 3.7 percent in 1970 to 7.4 percent in 1980. The national rate was 6.6 percent (4.4 percent in 1970).

The rate of unemployment varied greatly among the counties in Pennsylvania with noticeably higher levels in several nonmetropolitan counties. Almost one-third of the nonmetropolitan counties in the State had unemployment rates in excess of 10 percent in 1980. Bedford County led the State with an umemployment rate of 12.6 percent. All but seven of its 38 municipalities had unemployment rates of 10 percent or more. The most drastic change in unemployment, however, was noted in Sullivan County. This county had an unemployment rate of 2.9 percent in 1970. Results from the 1980 Census indicated an unemployment rate of 11.6 percent.

With only 3.7 percent of its labor force out of work, Cumberland County had the lowest unemployment rate in the Commonwealth. Less than five percent unemployment was also noted in several other nonmetropolitan counties, among these Lancaster (4.1 percent), Montgomery (4.4 percent), and Chester (4.5 percent) Counties.

Figure 3 depicts unemployment rates by county in Pennsylvania.

1980 CENSUS DEFINITIONS AND PROCEDURES

In all, 50 separate questions were asked of respondents in the 1980 Census, covering a wide variety of data on population and housing. Thirty-two items dealt with characteristics of the respondents, and 27 dealt with the housing in which they lived.

Some questions were asked of all respondents. These items are called the "100-Percent Items." Most questions were asked of a sample of persons and housing units and are referred to as "Sample Items." The proportion of housing units or households that received the "Sample" form was one out of six in most areas. In areas estimated to have 2,500 or fewer persons, the sampling ratio was three out of six. Figure 4 lists the subject items in the 1980 Census, separating Population and Housing and "100 Percent" and "Sample" Items.

The data presented in Tables 1 and 2 of this publication are based on the 1980 census sample. These data are estimates of the actual figures that would have resulted from a complete count. Estimates can be expected to vary from the complete count result, because they are subject to two basic types of error — sampling and nonsampling. The sampling error in the data arises from the selection of persons and housing units to be included in the sample. The nonsampling error is the result of all other errors that may occur during the collection and processing phases of the census.

A complete explanation of the limitations of 1980 Census data is provided in the 1980 Census of Population and Housing: User's Guide. This publication is available from the U.S. Government Printing Office at $5.50 per copy. The GPO stock number is 003-024-03625-8. Copies are available for review at the PSDC or Affiliate Data Centers.

Most of the 1980 Census items are more or less self-explanatory. A few definitions, however, require special attention when using census data.

Per Capita Income - This item is derived by dividing the total income of an area by the total population of that area.

Work Disability - Refers to persons having a health condition which has lasted six or more months and which limits the kind or amount of work which they can do at a job.

Family vs. Household - A family consists of a householder and one or more other persons living together who are related by birth, marriage or adoption. A household refers to all persons occupying a housing unit.

While data for the Census of Population and Housing were collected from individual households, information about each respondent is not released. Instead, the data are aggregated to various levels of Census Geography. In general, the detail available for Census data decreases as the level of Census Geography becomes smaller.

Questions from the Census are summarized to different geographic levels so it is not always possible to find the specific information needed for the particular level of geography being analyzed.

All data collected in the 1980 Census are available at the statewide level, SMSAs, and large counties and cities. Most data are available for all counties, Minor Civil Divisions, Places, and Census Tracts. For smaller areas of Census Geography, such as Enumeration Districts, Block Groups, and Blocks, considerable information can be summarized; but the data are not as detailed as for the larger areas.

An additional restriction on data availability arises from "suppression." Data that would ordinarily be available are suppressed for an area when there are too few persons or housing units to meet the Bureau's standard of data release or where individuals or housing units could be identified by subtraction of one category of a table from another category of the table.

Because of data suppression, tables for small geographic areas may not show counts in some cells. Also, totals resulting from summation of small areas to a larger area (such as blocks to a tract) may not match the totals tabulated from records for the larger area. Some data in one or more of the small areas may be suppressed but the data for the larger area may not be suppressed.

Six basic counts are never suppressed for any area:

Total Population
Total Housing Units
Year-round Housing Units
Occupied Units
Vacant Year-round Housing Units
Count of persons and households in each Race or Spanish Origin Group.

For other characteristics, the general criteria for suppression is fewer than 15 persons or five housing units in the geographic area.

Institute of State and Regional Affairs (ISRA)

Since 1973, the Institute of State and Regional Affairs at Penn State/Capitol Campus has been serving the public by providing planning, policy, and technical assistance to governmental units. The Institute actively reaffirms Capitol Campus's special service role to state government and is committed to serving the people of Pennsylvania. For additional information about the Institute contact either Irving Hand, Director or Robert Surridge, Assistant Director.

Pennsylvania State Data Center

Established through an Executive Order issued by Governor Thornburgh, the objective of the PSDC is to provide a coordinated means for ready access to statistical products and related services. To accomplish the objective, the PSDC provides data products and technical assistance on a 100% cost recovery basis.

Institute of State and Regional Affairs staff responsible for the PSDC are Lisa Bontempo, Michael Behney, Dennis Klos, Teresa Startoni, Brady Stroh, and Robert Surridge.

CORRECTION NOTE

Shown below are corrections to the 1980 census counts of the total population made after the tabulations for this report were completed. Some corrections in this note may be in addition to or supersede those in the correction notes for the PC80-1-A and 1-B reports.

Any additional corrections made after this report is printed are available by writing to Data User Services Division, Customer Services (Corrections), Bureau of the Census, Washington, D.C. 20233.

APPENDIX A

Economic and Social Indicators Technical Notes

TECHNICAL NOTES

PER CAPITA INCOME: Per Capita Income is calculated by dividing the 1979 aggregate income for persons 15 years and over by the total number of persons in the group.

FAMILY AND HOUSEHOLD INCOME: Both of these items are median figures based on the 1979 statistics. A household consists of all persons occupying a single housing unit, i.e., house or apartment. A family consists of two or more persons, living in the same household, who are related by blood, marriage or adoption.

UNRELATED INDIVIDUALS INCOME: "Unrelated Individuals" includes persons 15 years and over who are non-relatives in family households, persons in non-family households and non-inmates in group quarters.

PERSONS BELOW POVERTY: Tabulations of poverty status exclude inmates of institutions, members of the Armed Forces living in barracks or on military ships, college students living in dormitories and unrelated individuals under 15.

FAMILIES BELOW POVERTY: Families are classified as being below the poverty level, based on income in 1979 using a poverty index which provides a range of income cutoffs or "poverty thresholds" varying in size of family, number of children, and age of the family householder.

Thresholds At The Poverty Level In 1979 By Size Of Family And Number Of Related Children Under 18 Years Old

PENNSYLVANIA PROFILE FOOTNOTES

1) All persons in housing units, all persons in noninstitutional group quarters, and persons who are not inmates but who live in institutional group quarters are classified "noninstitutional". Only those persons in institutional group quarters with a relationship of "inmate" are classified as "institutional".

2) Per capita income is calculated by dividing the aggregate income for persons 15 years and over by the total number of persons in the group.

3) A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in "nonrelative category".

4) Tabulations of poverty status exclude inmates of institutions, members of the Armed Forces living in barracks or on military ships, college students living in dormitories, and unrelated individuals under 15 years.

5) Persons may be counted more than once in this tabulation.

6) "Asian and Pacific Islander", in the 100-percent tabulations, includes "Japanese", "Chinese", "Filipino", "Korean", "Asian and Pacific Islander", "Vietnamese", "Hawaiian", "Guamanian", and "Samoan." "Asian and Pacific Islander", in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "other" category.

7) Veterans are classified by the most recent period of service, excluding peace time service.

8) The 1980 census Labor Force has been divided into three categories: Civilian, Armed Forces, and those not in the labor force. The Civilian Labor Force has been further divided into three categories: those employed, both at work and with a job but not at work, and those unemployed.

9) For data tabulated on a 100-percent basis, includes all persons in the category "other." For data tabulated from sample, excludes those persons who have write-in entry of an Asian and Pacific Islander group in the "other" category.

10) Code ranges may include codes which are not used.

11) Includes females who are a householder, a spouse of householder, a mother in a mother-child subfamily, or a female spouse in a married-couple subfamily.

12) "Not reported" means place of work was not reported at all or was not reported at least to the county level. In tabulations, "reported" cases that are not reported to the area required for a specific tabulation are treated as reported but as working outside of that area.

13) Vehicles include automobiles, trucks and vans.

14) Ancestry refers to respondents' written entries on the census questionnaire. Tabulations of ancestry may necessitate the counting of an individual more than once.

15) This category refers to written entries of Spanish groups in the race question. Such entries are not necessarily consistent with responses in the Spanish origin question.

16) The count of households in sample tabulations may differ from the number of housing units. This is a result of the weighting process used to minimize differences between complete counts and sample estimates.

17) Tabulations for households and families are classified by the race and Spanish origin of the householder.

18) Households may be counted more than once in this tabulation.

19) This aggregate, along with relevant count, will permit the computation of a mean.

20) Relatives include householder, spouse, and the questionnaire categories: "son/daughter", "brother/sister", "father/mother", and "other relative." Tabulations of "other relatives" incluse all categories not shown separately in the matrix.

21) "Nonrelatives" include the questionnaire categories: "roomer, boarder", "partner, roommate", "paid employee", and "other nonrelative". Tabulations of "nonrelatives" include all categories not shown separately in the matrix.

22) Tabulations of "persons in household" based on 100-percent data by definitions are the same as tabulations of "persons in unit." The phrase "persons in household" is used unless the matrix is satisfied by a housing item such as tenure, plumbing facilities, etc.

23) Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.

24) "Units in structure" include "a mobile home or trailer", "a one family house detached from any other house", "a one family house attached to one or more houses", "a building for 2, 3 or 4, 5 to 9, 10 to 19, 20 to 49, 50 or more families", "a boat, tent, van, etc."

25) These counts are not available for summary levels on STF3, File B. Zero (0) will be shown.

26) Vacant housing units include the questionnaire categories: "for rent", "for sale only", "rented or sold, not occupied", "held for occasional use", and "other vacant." Tabulations of "other vacants" include all categories not shown separately in the matrix.

27) Fuels include "utility gas" ("gas from underground pipes serving the neighborhood"), "bottled, tank or LP gas", "fuel oil, kerosene, etc.", "coal or coke", "wood", "other fuel", and "no fuel used." Tabulations of "other" include all categories not shown separately in the matrix.

28) Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of 10 or more acres. Units tabulated in the "no cash rent" category also exclude one-family homes on 10 or more acres. A unit classified as "no cash rent" in contract rent will remain no cash rent in the gross rent distribution even if the units occupants pay for utilities themselves. Gross rent is the sum of contract rent and utility costs. Rent asked is tabulated for "vacant-for-rent" units except one-family homes on 10 or more acres.

29) Lacking complete plumbing (facilities) for exclusive use includes: complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.

30) The non-condominium value and selected monthly owner costs distributions are restricted to certain kinds of "owner-occupied" units. The following are excluded from the tabulations on value for non-condominium units:
    A) units at an address with two or more units.
    B) units on 10 or more acres.
    C) units with a commercial establishment or medical office on the property.
    D) Mobile homes or trailers.

31) Multiply the aggregate value by $250 to obtain the true value. The tabulation was scaled by a factor of 250 for tally purposes.

32) "Utilities" include "electricity", "gas", "water", and "oil, coal, kerosene, wood, etc."

33) "With central heating system" includes "steam or hot water system", "central warm air furnace", "electric heat pump", "other built-in electric units", and "floor, wall, or pipeless furnace." "Lacking central heating system" includes "room heaters with flue", "room heaters without flue", "fireplaces, stoves, or portable room heaters", and "none."

34) Includes households with zero or negative income and units tabulated in the "no cash rent" category.

35) "Selected Monthly Owner Costs" is the sum of payments for real estate taxes, property or insurance, utilities (see footnote 32), and regular mortgage payments.

36) Includes households with zero or negative income.

37) Excludes Armenians, Georgian, Ruthenian, Ukranian and Belorussian.

AFFILIATE DATA CENTERS

The purpose of the Affiliate Data Center (ADC) network is to more directly meet the needs of local users. The ADCs maintain a publicly accessible collection of census materials and reports. They have personnel trained to assist data users in locating data items and are available for consultation. The ADCs provide a wide range of products and services on a cost recovery basis.

Statewide Affiliate

The governor has designated the Health Data Center as the official state center for health statistics. As a member of the Affiliate Data Center network, the Health Data Center provides statistical support services to meet the needs of federal, state, and local data users and providers in both the public and private sectors.

For health statistics information contact:
